## Human Genetic Disorder Presentations

While listening to others' presentations, answer the questions below. Each answer must come from a DIFFERENT presentation, but you do NOT have to go in order.

### **Genetic Disorder 1:**

- Cause (Which chromosome? Which gene?)

### **Genetic Disorder 2:**

- Inheritance (How is it transmitted-Is it dominant, recessive, sex-linked, etc?)

### **Genetic Disorder 3:**

- Incidence (How many people, males/females, race, location?)

### **Genetic Disorder 4:**

- Symptoms

### **Genetic Disorder 5:**

- Treatment

### **Genetic Disorder 6:**

- Testing/Screening

### **Genetic Disorder 7:**

- Prevention (Can it be prevented? If so, how)
